Round 2: <https://forms.gle/Ew7UNcEzMtBwuPjH8>

Round 3: <https://forms.gle/habmJbcD3Aoy31Fa6>

**The Set-up**

1. Create a Google Form for each round

  - a. Combine the forms on one spreadsheet by adding the responses to an existing spreadsheet
3. Use breakout rooms to create teams
4. Enable "share screen" for everyone (security settings)
5. Share the form for each round in chat right before sending them to breakout rooms

**Breakout Room Countdown Settings**

After you set up breakout rooms but before they go into breakout rooms:

Select "Options" (bottom left) and check:

- Allow participants to return to main room at any time
- Breakout rooms will automatically close after X minutes
- Notify me when time is up
- Countdown after closing breakout rooms: 10 to 15 \_\_\_\_\_seconds

Mix it up each round:

- Different types of questions
  - Short answer, MC, T/F
  - Image/video based
- More questions or less time each round
- "Flash Rounds"
  - 10 T/F in 2 minutes
  - Naming images (charts, equations etc.) quickly
- Different point values each round
  - Each question is worth the amount of point that round!
- Make a Final Question round while you calculate other totals

## Ensuring Fairness

It is going to be more difficult to ensure there is no cheating in this environment.

- Keep time short
- Play for review, fun and pride
- Motivate with something fun, for example, winners will get a special "I'm a winner" Zoom background made by you that they can proudly display :)

## PollEverywhere

Alternative to Google Forms

Pros:

- Gives live score updates
- Can be imbedded into Google Slides/ppt so you don't have to change windows or use breakout rooms
- Lots of other activities in addition to multiple choice

Cons:

- Not as great for team trivia
- Works best if participants use their \_\_\_\_\_phone
